At Benno Bikes we are driven to create bikes that provide true urban mobility and versatility. We are just as enthusiastic about running errands as other bike companies are about winning races.

Benno Baenziger

I founded Benno Bikes in 2015 with a purpose. Inspire more people to ride and empower them to ride more. To grab a helmet and leave their car keys behind. Electrification is the key. As a designer, I’m awed by its potential. It has transformed my humble pencil into a full-color palette of possibilities and changed the way I think about bike design and functionality. Electric assist flattens hills, shortens distances, blunts headwinds and lightens cargo weight, leaving only the joy of two wheels, without the objections. But, I believe most bike companies have yet to truly understand the power of electric assist technology to impact our everyday transportation choices. They continue to ignore the real desires of riders. Regular ebikes offer very little utility and full-size cargo ebikes are too big and awkward to ride daily. This has forced riders to choose between fun and practicality. So we’ve created a completely new ebike category. One that combines an awesome ride with the capability to carry significant loads. Where agility meets true utility. We call it Etility®.
We believe ebikes have the power to change things for the better. To get more people outside, out of cars and out of excuses. Designing bikes for a higher purpose requires that we build them to a higher standard—with the perfect blend of ride, capability and style.

We don't build electric toys. We build true 2-wheeled transportation. Every Benno is designed around a bulletproof, Bosch mid-drive electric motor and battery engineered for performance and longevity. Each frame is built to precise tolerances and every component is of the highest standard. But Benno ebikes are even more than the sum of their parts. Each model is crafted to fulfill the awesome potential of ebike technology.
WHICH BENNO BIKE IS RIGHT FOR YOU?

THE PERFECT BLEND

A typical ebike offers a nice ride, but not much utility. A cargo ebike carries heavy loads, but can be difficult to maneuver. We believe what people really need is an everyday ebike engineered with the perfect blend of ride dynamics, cargo capacity and good looks. Awesome agility with the ability to carry exactly what you need. We call it Etility Design and it’s at the heart of every Benno ebike.

RIDE
A great ride is the most essential ingredient. Because a bike that’s more agile, stable and maneuverable is ultimately more enjoyable.

LOOKS
Design that looks good is also about making sure you look and feel great riding a Benno—with and without cargo.

CARGO
Etility design means you can easily carry more cargo when you want to without having to pedal and store more bike than you need to.

THE PERFECT BLEND

Boost is the original Etility bike, delivering cargo bike capability without the cargo bike bulk. The ultimate multi-tasker, the Boost is the one bike that can do it all.

YOU WANT: A Swiss Army ebike that can haul groceries, beach gear and even a kid or two without taking up a ton of space in your garage.

YOU WANT: A standard-sized ebike that does everything to a higher standard, with modern design and cutting-edge capability.

YOU WANT: An ebike that’s fun to ride and easy to maneuver, with a heavy dose of versatility. This is the ebike everyone in the house will want to ride.

YOU WANT: A cargo ebike for less bulk and more nimble ride, sure-footed grip, and tons of smart ways to carry anything and everything.

46er
Swift, smooth and strong, the athletic 46er makes it look easy—hauling a load or just hauling down the road. Front suspension makes short work of uneven terrain, while an oversized rear rack expands your cargo options to give you unparalleled capability in a standard-sized bike.

YOU WANT: An Easy On that doesn’t sacrifice form or function. The ability to ride comfortably and confidently, with and without cargo.

YOU WANT: A cargo ebike for less bulk and more nimble ride, sure-footed grip, and tons of smart ways to carry anything and everything.

Style
A style is designed to look as good as it rides, with modern ebike technology, vintage-inspired style and true Etility functionality. Go ahead and get carried away with cargo. eJoy can handle it.

YOU WANT: A cargo ebike for less bulk and more nimble ride, sure-footed grip, and tons of smart ways to carry anything and everything.

YOU WANT: A Swiss Army ebike that can haul groceries, beach gear and even a kid or two without taking up a ton of space in your garage.

YOU WANT: An ebike that’s fun to ride and easy to maneuver, with a heavy dose of versatility. This is the ebike everyone in the house will want to ride.

YOU WANT: A cargo ebike for less bulk and more nimble ride, sure-footed grip, and tons of smart ways to carry anything and everything.

You want: A cargo ebike for less bulk and more nimble ride, sure-footed grip, and tons of smart ways to carry anything and everything.

You want: A cargo ebike for less bulk and more nimble ride, sure-footed grip, and tons of smart ways to carry anything and everything.

You want: A cargo ebike for less bulk and more nimble ride, sure-footed grip, and tons of smart ways to carry anything and everything.
A premium Bosch motor is the heart of every Benno bike. Built for power, efficiency and longevity, Bosch motors are engineered to beat in synchronous rhythm with the rider, with sensors that measure pedal power, cadence and speed over 1,000 times per second. The result is a smooth ride and organic interaction between bike and rider.
400 Miles in 4 Days
Laguna Beach to Monterey, California
e-powered by Bosch
THE BOOST DOES MORE, SO YOU CAN DO MORE.

The Benno Boost, with Etility® Design, is up for anything and able to carry more than 3x the load of a typical bike. Flatten hills and shorten distances with the industry leading Bosch mid-drive electric motor and dual battery option, delivering unrivaled performance with up to 160 miles of range. The award-winning Boost is many bikes in one, with a smart, interchangeable rack and rail system that lets you pick and choose from dozens of possible configurations to suit the mission and your lifestyle.
Load up with dual batteries and enough gear to tour the world or just explore your neighborhood.

Haul unique, heavy and oversized loads with ease. Works great with seatpost mounted surfboard racks.

Two kids fit comfortably on the rear rack using passenger rails and accessories.

Double down with two small kids in child seats.

Look out with dual batteries and enough gear to tour the world or just explore your neighborhood.

Carry a young kid in a child seat, an older kid on the back and still have room in the front tray.

Large panniers and a front tray make the perfect everyday bike.

Two kids fit comfortably on the rear rack using passenger rails and accessories.

More great with seatpost mounted surfboard racks.

New Oversized Rear Triangle

Stronger, beefier and more rigid seatstay and chainstay

Compatible with all Benno Front Trays (sold separately)

Only 45mm Longer than a Regular Bike

1905mm long

Magura Hydraulic Disc Brakes

4 piston front, 2 piston rear

Shimano Deore

10-speed drivetrain

Benno Dual Kickstand

Compatible

Boost Battery Option

For up to a 1000Wh (CX/Speed models)

Multifunction Utility Rack

Fits two child seats or passengers, rails, panniers, sidewinders, large panniers and wheel guards.

(max load 130lbs / 60kg)

**BOOST SPECS**

- **Max Gross Weight:** 440lb/200kg (Rider + Cargo + Bike)
- **5’1” – 6’3”**
- **155cm – 190cm**
- **Fits Wide Range of Riders**
- **Bult for Heavy Loads**

Be aware, when added together, the individual load ratings shown for the rider and cargo plus the actual weight of the bike will exceed max gross weight. Therefore, while you may maximize selected individual load ratings, the sum of all loads cannot exceed the max gross weight (rider + cargo + bike ≤ 440lb/200kg).
The 46er is the same length as a regular bike. And that’s where all similarities end. We ditched convention and added capability. Enough to make any cargo bike sweat. And gave it a sporty ride and front suspension. This unequaled combination of ride and capability starts with unequal wheels. 26” in the front for extra comfort and control, and 24” in the back for strength and a lower center of gravity. All powered by the Bosch CX/Speed and a 500Wh intube battery. Born of true Etility® Design, the 46er is reshaping the future of the ebike. For Benno Bikes and the industry.
Load up with dual batteries and enough gear to tour the world or just explore your neighborhood.

Fit an older kid on the back with plenty of room left for extra cargo.

Works great with seatpost mounted surfboard racks.

Carry a kid comfortably on the rear rack using passenger rails and accessories.

Transport a small kid in a child seat and still fit pannier bags on the rear rack.

Take your furry friend in the high volume XXL Trunk Bag.

Leave your car for the day and take the long way home.

The eJoy, with Eutility® Design, is so much more than cute. This is a seriously smart, seriously capable bike built around the industry leading Bosch mid-drive electric motor. The sturdy rack and available front trays and storage bags let you carry 2x more weight than the typical bike. The comfortable, upright riding position gives you confidence and control, even while carrying cargo. And for that extra precious cargo, the eJoy, is 100% compatible with most premium child seats.
Easy On
Low step thru frame for easy on and off
Compatible with all Benno Front Trays (sold separately)

Herrmans Lights
Front and rear

Oversized Rack
Fits single child seat, large city panniers and most generic pannier bags (max load 85lbs/40kg)

Shimano Hydraulic Disc Brakes
160mm rear / 180mm front

Enclosed Chainguard
Keeps looks and pants clean

Frame Mounted ABUS Lock
Same key as battery

Available as Shimano Internal 5-Speed (5i) or Deore 10-Speed (10D)

Many Bikes in One
Works great with seatpost mounted surfboard racks.

MADE FRESH FROM SCRATCH.

The RemiDemi® breaks all the rules of how a bike is supposed to look and ride. We gave it small wheels and fat, grippy tires for major maneuverability. A thick, sturdy frame with a convenient low step through. And an upright seating position atop a wide saddle that puts you in total control. The RemiDemi loves to play, but it can also put in heavy work with a powerful Bosch mid-drive electric motor, Shimano Sora 9-speed and hydraulic disc brakes, and available accessories that give you countless clever ways to carry a child or loads of cargo.
Easy On low step thru frame for easy on and off

REMIDEMI SPECS

Be aware, when added together, the individual load ratings shown for the rider and cargo plus the actual weight of the bike will exceed max gross weight. Therefore, while you may maximize selected individual load ratings, the sum of all loads cannot exceed the max gross weight (rider + cargo + bike ≤ 400lb/180kg).

Max Gross Weight: 400lb/180kg
(Rider + Cargo + Bike)
