

VOLUME 8

benno®

etility
DESIGN®

At Benno Bikes we are driven to create bikes that provide true urban mobility and versatility. We are just as enthusiastic about running errands as other bike companies are about winning races.

Benno Baenziger

DIFFERENT BY DESIGN

I founded Benno Bikes in 2015 with a purpose. Inspire more people to ride and empower them to ride more. To grab a helmet and leave their car keys behind. Electrification is the key. As a designer, I'm awed by its potential. It has transformed my humble pencil into a full-color palette of possibilities and changed the way I think about bike design and functionality. Electric assist flattens hills, shortens distances, blunts headwinds and lightens cargo weight, leaving only the joy of two wheels, without the objections. But, I believe most bike companies have yet to truly understand the power of electric assist technology to impact our everyday transportation choices. They continue to ignore the real desires of riders. Regular ebikes offer very little utility and full-size cargo ebikes are too big and awkward to ride daily. This has forced riders to choose between fun and practicality. So we've created a completely new ebike category. One that combines an awesome ride with the capability to carry significant loads. Where agility meets true utility. We call it Etility®.

WHY WE DESIGNED A BETTER EBIKE

We believe ebikes have the power to change things for the better. To get more people outside, out of cars and out of excuses. Designing bikes for a higher purpose requires that we build them to a higher standard—with the perfect blend of ride, capability and style.

HOW WE BUILD A BETTER EBIKE

We don't build electric toys. We build true 2-wheeled transportation. Every Benno is designed around a bulletproof, Bosch mid-drive electric motor and battery engineered for performance and longevity. Each frame is built to precise tolerances and every component is of the highest standard. But Benno ebikes are even more than the sum of their parts. Each model is crafted to fulfill the awesome potential of ebike technology.

THE ETILITY BIKE

A typical ebike offers a nice ride, but not much utility. A cargo ebike carries heavy loads, but can be difficult to maneuver. We believe what people really need is an everyday ebike engineered with the perfect blend of ride dynamics, cargo capacity and good looks. Awesome agility with the ability to carry exactly what you need. We call it Etility® Design and it's at the heart of every Benno ebike.

RIDE

A great ride is the most essential ingredient. Because a bike that's more agile, stable and maneuverable is ultimately more enjoyable.

LOOKS

Design that looks good is also about making sure you look and feel great riding a Benno—with and without cargo.

CARGO

Etility design means you can easily carry more cargo when you want to without having to pedal and store more bike than you need to.

THE PERFECT BLEND

WHICH BENNO BIKE IS RIGHT FOR YOU?

BOOST

ADVENTURE MEETS CAPABILITY

Boost is the original Etility bike, delivering cargo bike capability without the cargo bike bulk. The ultimate multi-tasker, the Boost is the one bike that can do it all.

YOU WANT: A Swiss Army ebike that can haul groceries, beach gear and even a kid or two without taking up a ton of space in your garage.

MAX GROSS WEIGHT* 440lb / 200kg

REAR PASSENGER

MAX 130lb / 60kg

46ER

AGILITY MEETS CAPABILITY

Swift, smooth and strong, the athletic 46er makes it look easy—hauling a load or just hauling down the road. Front suspension makes short work of uneven terrain, while an oversized rear rack expands your cargo options to give you unequaled capability in a standard-sized bike.

YOU WANT: A standard-sized ebike that does everything to a higher standard, with modern design and cutting-edge capability.

MAX GROSS WEIGHT* 420lb / 190kg

REAR PASSENGER

MAX 130lb / 60kg

EJOY

STYLE MEETS CAPABILITY

eJoy is designed to look as good as it rides, with modern ebike technology, vintage-inspired style and true Etility functionality. Go ahead and get carried away with cargo. eJoy can handle it.

YOU WANT: An Easy On that doesn't sacrifice form or function. The ability to ride comfortably and confidently, with and without cargo.

MAX GROSS WEIGHT* 400lb / 180kg

REAR PASSENGER

MAX 85lb / 40kg

REMIDEMI

CLEVER MEETS CAPABILITY

Grab your stuff and jump on. The RemiDemi is always ready for action with a low Easy On, nimble ride, sure-footed grip, and tons of smart ways to carry anything and everything.

YOU WANT: An ebike that's fun to ride and easy to maneuver, with a heavy dose of versatility. This is the ebike everyone in the house will want to ride.

MAX GROSS WEIGHT* 400lb / 180kg

REAR PASSENGER

MAX 85lb / 40kg

*MAX GROSS WEIGHT = Rider+Cargo+Bike

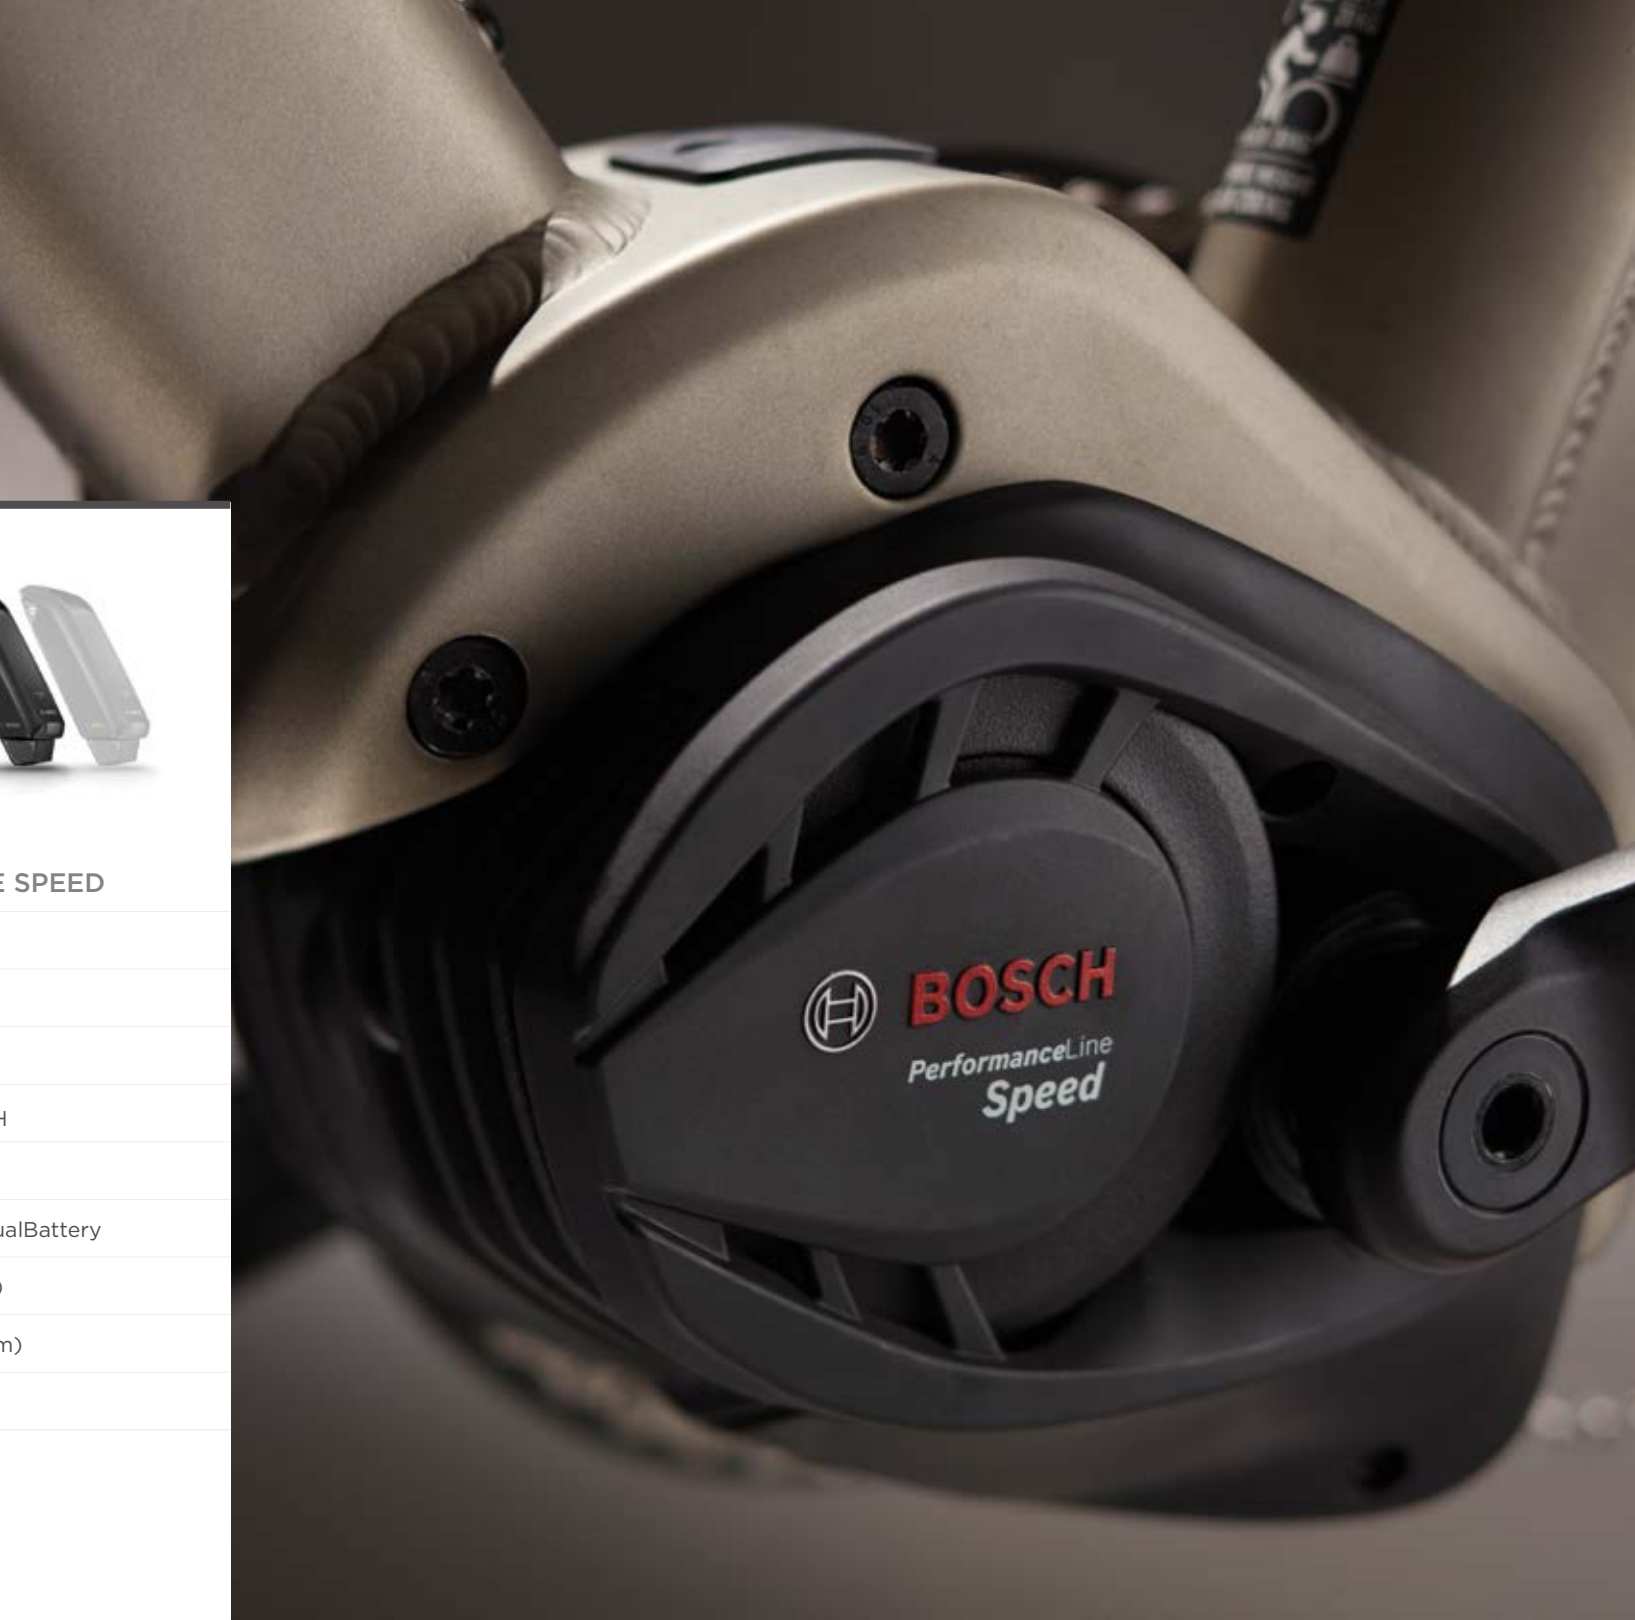

LET’S TALK MOTORS.

A premium Bosch motor is the heart of every Benno bike. Built for power, efficiency and longevity, Bosch motors are engineered to beat in synchronous rhythm with the rider, with sensors that measure pedal power, cadence and speed over 1,000 times per second. The result is a smooth ride and organic interaction between bike and rider.

BOOST

THE BOOST DOES MORE, SO YOU CAN DO MORE.

The Benno Boost, with Etility® Design, is up for anything and able to carry more than 3x the load of a typical bike. Flatten hills and shorten distances with the industry leading Bosch mid-drive electric motor and dual battery option, delivering unrivaled performance with up to 160 miles of range. The award-winning Boost is many bikes in one, with a smart, interchangeable rack and rail system that lets you pick and choose from dozens of possible configurations to suit the mission and your lifestyle.

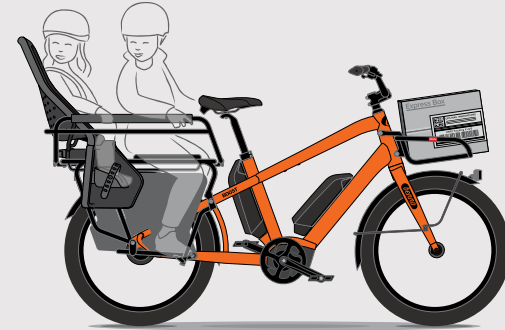

MANY BIKES IN ONE

Large panniers and a front tray make the perfect everyday bike.

Fit pannier bags behind a child seat on the rear rack.

Carry a young kid in a child seat, an older kid on the back and still have room in the front tray.

Two kids fit comfortably on the rear rack using passenger rails and accessories.

Double down with two small kids in child seats.

Load up with dual batteries and enough gear to tour the world or just explore your neighborhood.

Haul unique, heavy and oversized loads with ease.

Works great with seatpost mounted surfboard racks.

etility

- Fits Two Passengers (Additional Accessories Required)
- Fits Most Aftermarket Pannier Bags and Accessories
- Compatible with all Benno Front Trays
- One Frame Size (Fits Riders from 5'1" to 6'3")

46er

NOT ALL WHEELS ARE CREATED EQUAL.

The 46er is the same length as a regular bike. And that's where all similarities end. We ditched convention and added capability. Enough to make any cargo bike sweat. And gave it a sporty ride and front suspension. This unequal combination of ride and capability starts with unequal wheels. 26" in the front for extra comfort and control, and 24" in the back for strength and a lower center of gravity. All powered by the Bosch CX/Speed and a 500Wh intube battery. Born of true Etility® Design, the 46er is reshaping the future of the ebike. For Benno Bikes and the industry.

MANY BIKES IN ONE

Large panniers and a front tray make the perfect everyday bike.

Leave your car for the day and take the long way home.

Take your furry friend in the high volume XXL Trunk Bag.

Carry a kid comfortably on the rear rack using passenger rails and accessories.

Transport a small kid in a child seat and still fit pannier bags on the rear rack.

Load up with dual batteries and enough gear to tour the world or just explore your neighborhood.

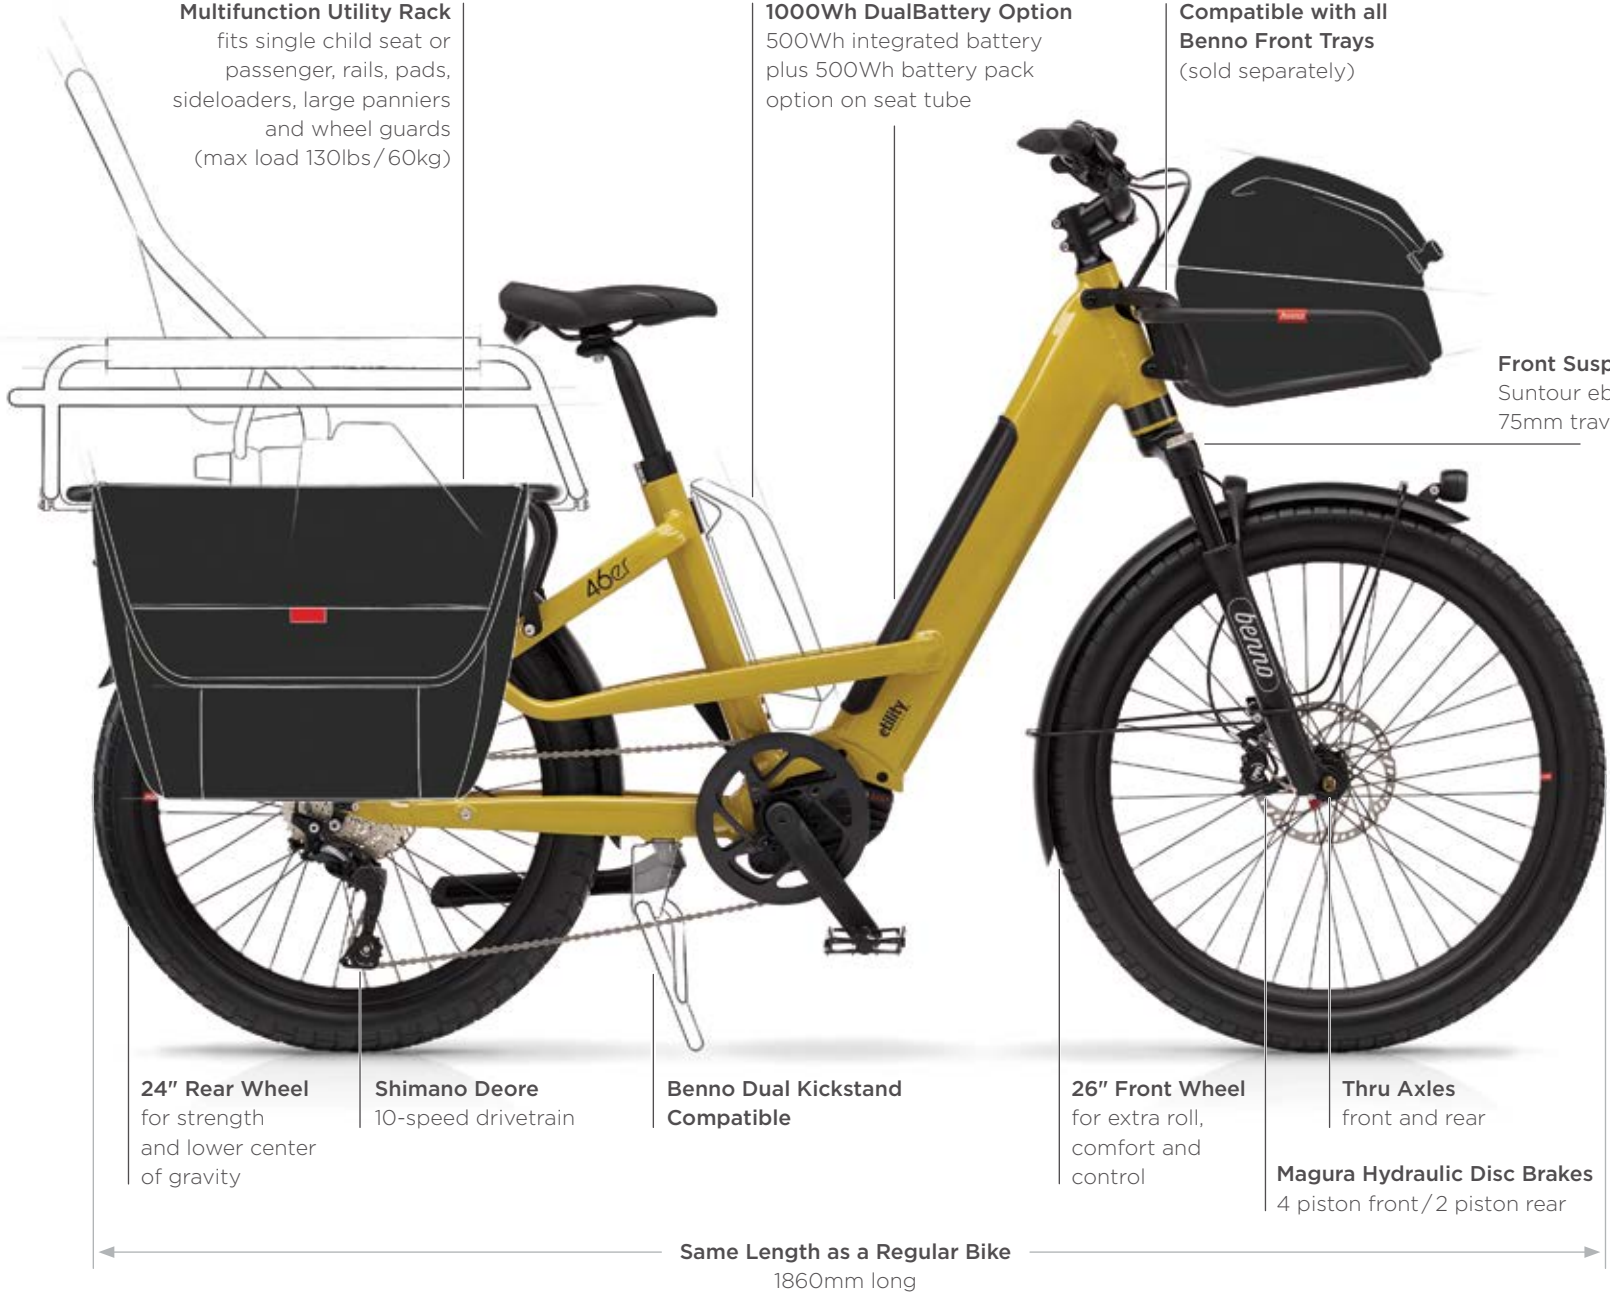

Fit an older kid on the back with plenty of room left for extra cargo.

Works great with seatpost mounted surfboard racks.

eJOY

THE STEP THROUGH THAT RAISES THE BAR.

The eJoy, with Etility® Design, is so much more than cute. This is a seriously smart, seriously capable bike built around the industry leading Bosch mid-drive electric motor. The sturdy rack and available front trays and storage bags let you carry 2x more weight than the typical bike. The comfortable, upright riding position gives you confidence and control, even while carrying cargo. And for that extra precious cargo, the eJoy, is 100% compatible with most premium child seats.

MANY BIKES IN ONE

Sturdy rear rack with 85lbs/40kg max load capacity.

Compatible with Yepp® and other popular child seats.

Attach your own crate to our Sport Front Tray.

Room for pannier bags behind a child seat.

Optional Front Tray Bag fits two grocery bags.

Fits City Panniers and most aftermarket rack accessories.

Five secure frame-mounted front tray options.

Works great with seatpost mounted surfboard racks.

RemiDemi

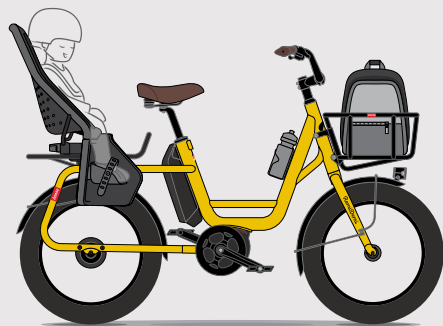

MADE FRESH FROM SCRATCH.

The RemiDemi® breaks all the rules of how a bike is supposed to look and ride. We gave it small wheels and fat, grippy tires for major maneuverability. A thick, sturdy frame with a convenient low step through. And an upright seating position atop a wide saddle that puts you in total control. The RemiDemi loves to play, but it can also put in heavy work with a powerful Bosch mid-drive electric motor, Shimano Sora 9-speed and hydraulic disc brakes, and available accessories that give you countless clever ways to carry a child or loads of cargo.

MANY BIKES IN ONE

Carry a passenger (85lbs/40kg max) with Passenger Kit and Jump Seat Rear Rack.

Compatible with Yepp® and other popular child seats.

Delivery box and City Front Basket for commercial use.

Fits most Racktime® accessories for more versatility.

City Pannier Bags fit onto our Jump Seat Rear Rack.

Attach your own crate to our Sport Front Tray.

Five secure frame-mounted front tray options.

Works great with seatpost mounted surfboard racks.
